

# Some Maps That Might Help

The 2017 Field Day will be held on the Grace Greenley Farm (39°57'26.95"N; 92°10'38.79"W), just south of Novelty, MO where the Lee Greenley Research Center is located.

The map of the Field Day activities is not exact, but will give you an overview of the activities and their basic location.

This is the 40th Annual Greenley Field Day where the average attendance has been 300-400 landowners. With the addition of live construction to their educational stations, we expect to have a larger crowd.

Please be sure to note the deadline dates. We want to include everyone possible in our promotional efforts!
