

# 2019 Conservation Showcase

July 22-27, 2019

*Grace Greenley Farm*

*Greenley Research Center*

*Novelty, MO*

## Can You Help Feed the Guys?

Although the public tours for our Conservation Showcase will begin on July 22, we will have contractors on site from July 18 through July 27. We are asking our Associate members to help feed the guys during this time, as well as to provide water during construction.

Our contractors are going to be donating hundreds of hours to install the third and final phase of the country's first holistic drain water recycling research project on the Grace Greenley Farm in Novelty, MO ... and we could use your help!

If you haven't been contacted yet or have not yet contributed equipment, would you consider sending a donation to help offset the cost of the food & water? If so, we will be sure to include your company's name as one of our partners in the project.

Please send your contribution to MLICA; 1101 West High Street; Jefferson City, MO 65109. If possible, please send your donation or contact Debbie (573-634-3001; [MLICA@aol.com](mailto:MLICA@aol.com)) with your pledge by June 25 so we can get your company included in the promotional materials. Any contribution you can make will be greatly appreciated!

*Thank you, in advance, for your kind consideration!*
