PROGRAM: MISSOURI ONE CALL ISSUES

In 2021, Representative Griesheimer proposed a bill to establish the "Underground Damage Prevention Review Board" to review reports of alleged violations of the Underground Facility Safety and Damage Prevention Act. MLICA participated in Stakeholder meetings regarding the proposal, but the bill did not move forward. MLICA is still working on the issue. Come learn what's being done and how you can help!

*You are welcome to bring a

with you!*
